## DETECTABLE PROTECTION

### ECO corded detectable ear plugs

The ECO detectable ear plugs are made from a polyurethane foam which perfectly fits the auditory meatus. Detectable brass ball. The plugs are connected by a blue PVC cord. Excellent attenuation of noise (SNR 36dB). Ideal for food industries, noisy industrial environments... Colour : blue. 150 pairs in a box.

| Code |       |
|------|-------|
| -    | 21335 |

### EAR SOFT blue detectable ear plugs

The E.A.R. Soft Metal Detectable ear plugs, roll-down ear plugs, are made from a slow expanding polyurethane foam which insures even pressure distribution, flexibility, good protection with outstanding comfort and excellent attenuation (SNR 36dB). Detectable cord and integral stainless steel ball. Ideal for food industries, automotive, chemicals... Colour : blue. 200 pairs in a box.

| Code |       |
|------|-------|
| -    | 12002 |

### TRACER corded detectable ear plugs

The E.A.R. Tracer pre-moulded ear plugs are made from silicone and solid polymer cord. They are fully detectable thanks to the metal ball in the caps. Triple flange, flexible and adapted to the ear canal shape to insure triple protection against noise (SNR 32dB). The plastic stem enables a quick, clean and optimal insertion for a maximum protection. Ideal for food industries, chemicals... Colour : blue. 200 pairs in a box.

| Code |      |
|------|------|
| -    | 7704 |

### CLEAN EAR corded detectable ear plugs

These detectable corded ear plugs are in silicone. They are composed of 2 flanges and offer attenuation at SNR25. The blue and red plugs enable to avoid cross contamination by identifying each ear. These plugs are fully detectable (no metal ball), lightweight and easy to clean. The plastic stem enables a quick, clean and optimal insertion for a maximum protection. Ideal for food industries. Colour : blue and red, blue cord. 200 pairs in a box.

| Code |       |
|------|-------|
| -    | 20326 |

### Detectable plasters (by 100)

Electromagnetic and visual blue detectable plasters. The metal strip positioned behind the lint pad is the key component for detection. Packed by bag of 100 plasters of different sizes (30 in 75x25 mm, 30 in 70x20 mm, 30 in 40x40 mm and 10 in 75x50 mm).

| Code |       |
|------|-------|
| -    | 20325 |

## DETECTABLE BRUSHES

### Detectable square scoop

Square scoop, in detectable polypropylene. Capacity : 250, 600, 1200 or 2400 ml. Colour : blue.

|        | Code  |
|--------|-------|
| 250ML  | 20319 |
| 600ML  | 20320 |
| 1200ML | 20321 |
| 2400ML | 20322 |

### Detectable flexible scrapers

Detectable polypropylene scraper, with hanging hole. Available in different colours and in 2 dimensions : 160x100 mm (small model) or 230x117 mm (large model).

|           | Code  |
|-----------|-------|
| SM BLUE   | 20311 |
| SM YELLOW | 20312 |
| SM RED    | 20313 |
| SM GREEN  | 20314 |
| LM BLUE   | 20315 |
| LM YELLOW | 20316 |
| LM RED    | 20317 |
| LM GREEN  | 20318 |

### Detectable scraper 102 mm

Flat scraper in detectable polypropylene allowing to remove dry and embedded dirt on worktables, machines... Width : 102 mm. Colour : blue.

|   | Code  |
|---|-------|
| - | 20226 |

### Detectable stirrer with holes

Detectable polypropylene stirrer. Blade with holes to ease stirring. Dimensions : H.1200 x W.163 mm. Colour : blue.

|   | Code  |
|---|-------|
| - | 17440 |

## DETECTABLE KNIVES

### Detectable cutter Profi25

Ambidextrous cutter, in aluminum and plastic, detectable. Tough handle, not painted, blade overhang 25 mm. Semi-automatic blade retraction. The blade can be used on both sides. Refill blade : code Bobet 21888.

| Code |       |
|------|-------|
| -    | 21889 |

### Cutter with detectable beak Cenon

Detectable food plastic cutter with beak. Reinforced protection, protected blade. Disposable cutter (fixed blade).

| Code |       |
|------|-------|
| -    | 17613 |

### Cutter with detectable beak Cricri2

Detectable food safe plastic cutter with beak, protected blade. Refill blade : code Bobet 17656.

| Code |       |
|------|-------|
| -    | 17654 |

### Cutter with detectable beak Sofiac2

Safety knife in food safe detectable plastic, stainless steel blade protected by a half head in chrome-plated aluminum. Refill blade : code Bobet 17656.

| Code |       |
|------|-------|
| -    | 22500 |

### Dectectable cutter Smartcut

Ambidextrous cutter, disposable and in detectable plastic. Bilateral slide. Stainless steel blade.

| Code |       |
|------|-------|
| -    | 21191 |

## Paneton detectable scoring knife

Scoring knife, for scoring thin bread doughs, fit with a detectable food safe blue plastic blade. The blade can be changed easily (code Bobet 21334).

| Code |       |
|------|-------|
| -    | 20115 |

## Boulangue detectable scoring knife

Scoring knife with ergonomic and ambidextrous handle. For a curved scoring of breads. The blade can be changed easily (refill blade : code Bobet 25107).

| Code |       |
|------|-------|
| -    | 25106 |

## Detectable scissors

General purpose scissors. Ambidextrous. Stainless steel blade. Length : 210 mm. Food safe detectable blue plastic handles.

| Code |       |
|------|-------|
| -    | 20310 |

## Detectable split ring cutter

Detectable split ring cutter, ideal to cut strings. Identifiable by metal detectors.

| Code |       |
|------|-------|
| -    | 21700 |

## DETECTABLE MARKING

### Detectable metal pen

One-piece detectable metal pen, blue ink. Made with two kinds of metal to enable both magnetic detection and X-ray detection. Ideal for clean environments and in room temperature, or when the use of one-piece pen is recommended. Packed by 50 pens. Two models available : with or without pocket clip. Refill blue ink: code 20333.

|           | Code  |
|-----------|-------|
| W/O CLIP  | 17248 |
| WITH CLIP | 20332 |

### Detectable retractable pen

Pen with clip, in detectable plastic, blue or black ink. Lightly textured matte finish for working in oily and wet environments. Packed by 25 pens. Blue ink refill : code 20333 and black ink refill : code 23267.

|       | Code  |
|-------|-------|
| BLUE  | 23272 |
| BLACK | 23273 |

### Detectable retractable pen without clip

Pen without clip, in detectable plastic, blue ink. Lightly textured matte finish for working in oily and wet environments. With hole for clip or strap. Packed by 50 pens. Refill blue ink : code 20333.

|   | Code  |
|---|-------|
| - | 23283 |

### Blue ink refill for detectable pen

Blue, black, red or green ink refill. Plastic body. Fits : detectable plastic pen (codes 23272 and 23273), detectable plastic pen without clip (code 23283), detectable metal pen without clip (code 17248) and detectable metal pen with clip (code 20332). Packed by 100 refills.

|                          | Code  |
|--------------------------|-------|

## Detectable fine marker pen

Fine marker pen, in detectable plastic, blue ink. Using high intensity permanent ink, this pen is suitable for writing onto labels, CD Roms, greasy papers...Packed by 10 pens.

| Code |       |
|------|-------|
| -    | 20301 |

## Detectable retractable erasable marker

Retractable and erasable marker with clip, in detectable plastic, black ink. To be used on whiteboards in pharmaceuticals and food industries... Packed by 10 markers.

| Code |       |
|------|-------|
| -    | 21977 |

## Detectable erasable marker with chisel tip

Erasable marker with clip on the on the cap, in detectable plastic, non-toxic ink. Chisel tip. For use on white boards in pharmaceutical and food industries. Available in different colours. Packed by 10 markers.

| Code  |       |
|-------|-------|
| BLUE  | 23096 |
| BLACK | 23097 |
| RED   | 23098 |
| GREEN | 23099 |

## Detectable erasable marker

Erasable marker, in detectable plastic, black or blue ink. Round tip. To be used on whiteboards in pharmaceutical and food industries... Packed by 10 markers.

| Code        |       |
|-------------|-------|
| BLACK ROUND | 21978 |
| BLUE ROUND  | 23281 |

## Detectable non retractable marker pen

Non retractable marker pen, in detectable plastic. Ink : black. A robot permanent marker pen for bold writing on all surfaces. Safety clip on the cap. Packed by 10 pens.

| Code |       |
|------|-------|
| -    | 23279 |

# DETECTABLE RANGE

matériel

### DETECTABLE TIES AND STRINGS

#### Detectable re-usable cable ties 250x4.7

Detectable blue plastic tie. Very convenient as adjustable and re-usable. Ideal to close bags. Made in resistant and durable nylon. Dimensions : 250x4,7 mm. Specially designed for use in food industries. Packed by 100 ties.

|   | Code  |
|---|-------|
| - | 20327 |

#### Detectable bag gripper

Detectable blue plastic bag gripper. Reduces the risk of cross contamination and preserves hygienic standards by securing bag contents with this gripper. Integrated locking mechanism. Re-usable. Closing length : 100 mm. Total length : 245 mm. Packed by bag of 5 grippers.

|   | Code  |
|---|-------|
| - | 20324 |

#### Flat detectable bag gripper

Detectable blue plastic bag gripper, flat. Reduces the risk of cross contamination and preserves hygienic standards by securing bag contents with this gripper. Solid. Reusable. Closing length : 320 mm. Total length : 362 mm.

|   | Code  |
|---|-------|
| - | 21924 |

## DETECTABLE VARIOUS MATERIAL

### Detectable blue europ tank cover

Europ tank cover, in detectable blue polyethylene. Food safe. Thickness : 38 microns. Colour : blue. Packed by 250 covers roll. Fits our stainless steel Europ tanks (200 or 300 liters) or our polyethylene Europ tanks (200 liters).

| Code  |
|-------|
| -     |
| 20323 |

### Detectable swipe card holder

Detectable blue plastic swipe card holder. Can hold swipe cards of maximum dimensions 54x86 mm.

| Code  |
|-------|
| -     |
| 20309 |

### Detectable stapless stapler

This detectable stapler works without staples. Easy to use. It definitively eliminates the risk of contamination caused by wayward staples. This unique product cuts, folds and securely fixes up to 5 sheets of paper. Colour : blue.

| Code  |
|-------|
| -     |
| 20306 |

### Detectable paper clip

Jumbo paperclip in detectable blue plastic. Suitable for a range of applications (has been used as a detectable keyfob). Can also be used to complement our stapless stapler (code Bobet 20306) when large quantities of paper need to be temporarily secured. Can hold up to 40 paper sheets (of 80g). Dimensions : 80x40 mm. Colour : blue. Packed by 30 clips.

| Code  |
|-------|
| -     |
| 20307 |

### Detectable A4 clipboard

Detectable plastic clipboard, with stainless steel clip enabling to hold A4 sheets (21x29,7 cm) or smaller sheets.

| Code  |
|-------|
| -     |
| 20308 |

## DETECTABLE RANGE

**BOBET**  
matériel

### Detectable stainless steel board clip

Detectable stainless steel board clip. For holding large reams of paper, about 200 A4 sheets of 80g. Length (at the bottom of the clip : 75 mm).

| Code |       |
|------|-------|
| -    | 21481 |

# BOBET MATÉRIEL GENERAL CONDITIONS OF SALE

Applicable from first of Mai 2021

## ARTICLE 1 - GENERAL - APPLICATION

These general conditions of sale (GCS) apply to products sold in metropolitan France and overseas by the company Bobet Matériel (referred to below as 'Bobet') to its professional customers and replace previous conditions of sale. These GCS are, therefore, fully applicable to exports.

The act of placing of an order or the conclusion of any sale implies the customer's full and unreserved acceptance of these GCS to the exclusion of any other document, which is, on principle, unenforceable on Bobet.

Bobet reserves the right to refuse to conclude a sale or conclude a sale under conditions that deviate from these conditions in the event of a previous payment incident, the insolvency of the customer, a reduction in the rating given by Bobet's credit insurer or a demand that is abnormal or in bad faith.

The fact that Bobet does not, at any given time, rely on any of the provisions of these GCS cannot be interpreted as a waiver by it from subsequently relying on any of the said provisions.

## ARTICLE 2 - OPENING AN ACCOUNT - CONDITIONS

In order to be able to order a product from Bobet, it opens a customer account, for which the customer provides a certain amount of information and official documents (SIRET number, APE [French SIC] code, address, email address, bank account details). The customer is responsible for the information that it sends. Failure to provide this information may make the sale impossible. Any error by the customer resulting in expenditure by Bobet will involve the customer being invoiced for all of such expenditure in euros. Bobet will determine the acceptable level of outstanding customer invoices. The extent of such outstanding amounts may vary over time depending on the data obtained and may be reduced to €0.

## ARTICLE 3 - CHARACTERISTICS OF THE PRODUCTS

The products sold by Bobet are specified in the annual catalogue published by the latter. They cover the fields of personal protection, hygiene, brushes, cutlery, tool-making, stainless steel equipment on catalogue or made to measure, maintenance, etc. More details on the specificity and quality of these products is contained in the Bobet catalogue as well as, where applicable, the product sheets provided by Bobet. The products comply with the current standards. They are intended to be used in the context of the customer's professional activity. The customer must be a professional in the use of the products manufactured and/or marketed by Bobet and is solely responsible for the choice of products (properties, function(s), characteristics, dimensions of the products ordered) and, more generally, the suitability of the product ordered to its needs and, if applicable, those of its own customers.

The customer must also be aware of the maintenance rules for the products. If not, the customer must ask Bobet for them.

With regard, in particular, to stainless steel products, Bobet complies with the highest quality standards for raw materials. The stainless steel used is generally of class 1.4307 and, on request, 1.4304, which means that it is nearly impossible for a finished product to be defective.

## ARTICLE 4 - ORDERING, EXECUTION AND ACCEPTANCE

Ordering: The customer places an order by email or, as appropriate, telephone to Bobet or during a visit by the latter's sales force. The customer is fully responsible for the information contained in its order. The customer's order is binding on the customer. Bobet systematically produces an order confirmation (OC) which will specify the product, its price, the dimensions if applicable and the delivery time, which remains indicative. That document is sent to the customer by email. If any of the information in the OC differs from any of the information in the customer's order (eg, price, delivery time), the OC legally constitutes a counter-offer, which the customer may accept or refuse. The customer has one month in which to accept such counter-offer. Such period also constitutes the period of validity of Bobet's offer. In the absence of a written response within such period, the order or counter-offer lapses.

The issuing of an OC without any counter-offer constitutes the definitive conclusion of the sales contract.

On-the-spot sales: Bobet also sells its products when its sales trucks are on the road. In such situations, the customer can order and buy the product immediately and take possession of it at the same time. If the Bobet truck does not have the product in stock, the Bobet representative takes the order and it will be for the customer to take possession of the product and pay for it the next time the Bobet truck comes around.

In relation to 'made-to-measure' products: The measurements are in principle taken by a member of Bobet's sales force who is fully competent to do so. The customer may also take the measurements but it will do so under its own responsibility, as Bobet does not assume any obligation to verify or correct such measurements. In the latter situation, the quote will be prepared on the basis of the customer's measurements.

Bobet will organise the taking of such measurements in the context of Bobet's tour schedule. In such situation, there may be some delay between the request for an appointment and the date of the appointment. The week and place of the appointment are specified by Bobet by email. They are firm times and places.

If the customer cancels the appointment before its scheduled date or if the customer is not present for the appointment, Bobet will reschedule the appointment to a later date.

Once the measurements have been taken, Bobet sends a quote based on those measurements. The measurement work is part of Bobet's know-how and prior involvement. For this reason, the measurements are not provided to the customer with the quote so as not to allow the customer to rely on such work for the benefit of another supplier.

It is for the customer to receive the quote, study it and accept it by signing it. If accepted, it sends the accepted quote to Bobet by email accompanied, if applicable, by the requested deposit cheque, which will be immediately banked.

The receipt of the accepted quote and the deposit cheque (if such a deposit is requested) is deemed to be a sale and binds both Parties.

Order fulfillment: The delivery time (if the parties have agreed on deliveries) for standard products is between three and five days from the date of issue of the OC. This period will be several weeks for specific or customised products (see quote or OC).

Delays in delivery of a few days do not entitle the customer to any compensation of any kind whatsoever, unless it can be proven that there was direct and foreseeable damage linked exclusively to the delay in delivery. The products are delivered to the place of delivery that was agreed to by the parties, which is generally stated in the OC. Delivery on time can take place only if the customer is up to date with its obligations towards Bobet, whatever their subject matter.

Receipt of the order: The customer must acknowledge receipt of the order by signing the delivery note. In the event of made-to-measure products, the customer must install the product itself.

In the event of any damage, missing item or non-conformity with the terms of the OC or the accepted quote, the customer must state its PRECISE and undisputable reservations on the delivery note and send a registered letter with acknowledgement of receipt to any carrier and Bobet within three (3) days following receipt of the product. The reservations must be accompanied by the corresponding proof. If these conditions are not respected, the products will be irrefutably deemed to be in conformity. Bobet will process the complaint within two weeks of receiving it. In the absence of a response within this period, the complaint will be deemed to have been rejected. Bobet informs its customers that each delivery is strictly monitored in order to exclude all risks of missing items or non-conformities. Stainless steel products leave Bobet's warehouses in perfect condition.

Products that have been the subject of reservations can be returned to Bobet only in accordance with the latter's return procedure, after prior agreement from the customer service department, which will specify its terms, and the signing of the return form by the customer and the carrier. Failure to comply with these rules will result in the returned products being refused.

In the event of agreement on the principle of a return, the products must be returned by the customer, under its own responsibility, in their original condition and packaging and as soon as possible, ie, at the latest within one month of their delivery. In all situations, the customer undertakes to allow Bobet to access its site in order to verify the non-conformity or hidden defect. If Bobet confirms the defect in quality and/or conformity, it will deliver a new product, the defective product being returned to it. The customer will be invoiced for any damage to the product. Lastly, it should be noted that no product will be taken back, exchanged or reimbursed in the event of any change in French or supranational legislation that makes the product unfit for sale or use. Penalties: Bobet refuses any principle of penalties.

Special orders: For products that are not included in Bobet's catalogue or that Bobet cannot manufacture, Bobet will order the product from its manufacturer. Consequently, the customer undertakes to take delivery and pay the price. There can be no returns or items taken back.

## ARTICLE 5 - WARRANTY

The customer benefits from a warranty of conformity and against hidden defects under the conditions defined by law. However, the warranty of conformity ceases on first use of the product. For made-to-measure products, the customer is responsible for the place where the product is installed, the installation of the product itself and any damage suffered by the product during such installation.

Reminder: the products marketed by Bobet are mainly intended for the craft and food industries and are, therefore, subject to conditions of use that can be extreme, which can result in a very short product life.

Conditions of application of the warranty: The warranty covers products that are correctly maintained according to the recommendations for use and maintenance specified by Bobet and strictly used for their intended purpose.

Products with motors are subject to the manufacturer's warranty. At Bobet's sole discretion, the warranty extends to the replacement of all or part of the product that Bobet acknowledges is defective, with the exception of worn parts, or by the issuing of a credit note if the product is not damaged and is returned in its original packaging.

The customer can benefit from this warranty only if the price of the product has been paid in full. If Bobet needs to go to the customer's premises and the product is found not to be defective, the customer may be liable to pay compensation for the unjustified visit, which will be payable immediately.

Scope: The warranty covers only tangible, consequential and foreseeable damage relating to a proven defect in the product, excluding non-consequential, intangible, damage.

In any event, the customer is solely liable for any damage that may be caused by the behaviour of the product or that the latter may suffer. This particularly applies to dangerous products (Matador, knives, etc).

Exclusions: The warranty cannot apply specifically to: products that do not conform to their intended purpose, products that have not been installed in accordance with the instructions and standard industry practice by a professional, products that have not been used in a reasonable manner, products that have been modified by the customer or third parties, etc.

Implementation: Product returns are the subject of a 'provisional return note' until Bobet can assess the reality of the incident presented by the customer. In such situation, the customer remains the owner of the products and the risks are temporarily transferred to Bobet.

Whether the product is covered by the warranty depends on the result of the assessment. If not covered, Bobet will refer the customer to its after-sales service conditions. It should be noted that after-sales service is a separate legal operation the conditions of which must be accepted by the customer.

## ARTICLE 6 - PRICES AND PAYMENT

The price of the product is that which applies at the time of the order. It is exclusive of VAT, ex Champagne. It is free of charge from a minimum order of €450 excluding VAT. There is no minimum transport fee if delivered by the sales force.

The price is payable according to the following conditions:

- for all account openings, the price is payable in cash and before delivery. Bobet requests a pro-forma invoice;

- otherwise and except in the event of a risk that the customer is insolvent or in the situations referred to in Article 1, the payment period is 30 days net from the date of invoice;

For an order of more than €10,000 excluding VAT (sales in France), the customer must pay a part-payment of 30% of the price all taxes included before delivery of the goods.

Bobet reserves the right to send invoices by email, which the customer accepts.

Payment means the banking of the sums due and not the provision of the means of payment. No guarantee retention is allowed. No discount is granted for early payment.

In the event of non-payment on the agreed date, the customer will owe late-payment penalties calculated on the basis of a rate equal to three times the legal interest rate. In addition, the customer will owe an indemnity relating to the processing of the payment incident of €40 excluding VAT. In addition, the customer will owe a damages and interest penalty that is equal to 15% of the outstanding price, such penalty being a minimum of €100. Lastly, Bobet may suspend and/or cancel pending orders and demand payment of all sums, including those not yet due.

Any deduction is deemed to be a payment incident. Similarly, no set-off can be carried out between reciprocal debts unless the debt held by the customer over Bobet has first been accepted in writing by the latter. Under no circumstances can a dispute allow the customer to suspend payment.

The customer must reimburse all costs incurred by Bobet for the recovery of unpaid products and the contentious recovery of the sums due, including lawyers' and legal officers' fees. In addition to these costs, the customer will be liable for a fixed sum of €150 for the contentious management of the payment default.

## ARTICLE 7 - RETENTION OF TITLE, TRANSFER OF RISK AND OTHER PROVISIONS

THE PRODUCTS SOLD BY BOBET ARE SOLD SUBJECT TO A RESERVATION OF TITLE, MAKING THE TRANSFER OF OWNERSHIP TO THE CUSTOMER SUBJECT TO FULL PAYMENT OF THE PRICE IN PRINCIPAL AND ACCESSORIES, INCLUDING IN THE EVENT OF CREDITOR PROCEEDINGS AGAINST THE CUSTOMER.

Nevertheless, the risks relating to a product, ie, the damage that it may cause to goods or personal injury to persons or the damage that it may suffer, are transferred to the customer when the customer takes possession of it.

If the customer has resold the product before full payment of the purchase price, regardless of whether or not the customer is subject to creditor proceedings or that company voluntary arrangement, the customer acknowledges that the debt owed to Bobet for the price of the product will be applied to the price paid or to be paid by the subsequent purchaser of the product. In such situation, the customer expressly authorises Bobet to claim and obtain the price of the product from the subsequent purchaser and the customer is prohibited from at the same time claiming the payment of such price from the latter.

In the event of late payment of all or part of the price of more than 30 days in relation to the initially agreed payment date, Bobet may take back the product sold by any means, at its convenience and at the expense and risk of the customer, which the latter expressly accepts. Bobet will take a minimum of precautions when taking back the product. Nevertheless, if the taking-back operation damages the structure or the item to which the product is linked, the customer is prohibited from bringing any liability claims against Bobet and guarantees the acceptance of this principle by its own customer.

## ARTICLE 8 - INTELLECTUAL PROPERTY

Bobet's trademarks, patents, designs, models and copyrights are its exclusive property and a sale does not constitute a licence to use any of these rights. The plans and research carried out by Bobet for the production of its products are at all times its property and are the subject of an intellectual property and/or an industrial property right that the customer undertakes not to infringe. Lastly, the customer is prohibited from removing, modifying and/or adding any distinctive signs to the products.

## ARTICLE 9 - FORCE MAJEURE AND OTHER CIRCUMSTANCES

If a force majeure event occurs, Bobet can, at its discretion, suspend the performance of all or part of its obligations or simply terminate any pending contract or contracts without the customer being able to claim any compensation. A force majeure event is any unforeseeable, unavoidable or external event, these three characteristics being alternative, and, more generally, any event recognised as such by the law or the case law.

## ARTICLE 10 - REFERENCES

Unless the customer decides otherwise by registered letter with acknowledgement of receipt, the latter expressly authorises Bobet to refer to its status as a customer of Bobet, in particular in its commercial and promotional documents or in the context of a response to a call for tenders.

## ARTICLE 11 - PERSONAL DATA

For the purposes of managing orders and the monitoring of the contractual relationship, Bobet processes the personal data of individuals who are its contacts, whether customer employees, prospect managers and contacts. Such processing is carried out on the basis of the application of these GCS and compliance with Bobet's legal obligations (in particular in tax matters). No personal data will be transferred outside the European Union. Any subcontractors used by Bobet to process the personal data of its customer contacts (eg, a carrier, IT service provider, etc) will not transfer the data to a country outside the European Union. The data may be sent to the authorities (DGCCRF [Department of Competition, Consumers and Repression of Fraud], CNIL [National Data Protection Commission], tax authorities, etc) or a court in the event of proceedings.

The customer undertakes to inform Bobet of any updates to the personal data of the persons and/or employees concerned and personally inform each of those persons of the provisions of this clause. The persons concerned have the right to access, modify, limit and oppose the processing of their personal data by sending an email to the following address: [rgpd@bobet-materiel.com](mailto:rgpd@bobet-materiel.com).

The persons concerned have the right to lodge a complaint about the processing of their personal data by Bobet with the CNIL. Any person whose personal data is collected can define general or specific instructions on the retention, deletion and communication of their personal data after their death. The specific instructions can be registered with the data controller and general instructions can be registered with a CNIL-certified, trusted, digital third party. General or specific instructions can be modified or deleted at any time.

Bobet undertakes to implement appropriate technical measures to guarantee the security and confidentiality of personal data. Bobet undertakes to keep the personal data of its customers' and prospects' contacts for a period not exceeding that necessary to achieve the purposes for which they were collected or processed and, in any event, for a maximum period of 3 (three) years from the last order of products by the customer or the last contact with the prospect. Personal data can, nevertheless, be kept for a longer period of time in order to comply with Bobet's legal obligations, in particular tax obligations.

## ARTICLE 12 - APPLICABLE LAW - ATTRIBUTION OF JURISDICTION

All sales concluded by Bobet are exclusively subject to French law, excluding application of the Vienna Convention. The Parties exclude the application of Art. 1195 of the Civil Code on unforeseen circumstances and Arts. 1219, 1220 of the Civil Code.

The Le Mans Tribunal de Commerce [Commercial Court] has sole jurisdiction in the event of any dispute that relates to the formation, performance or termination of contracts concluded by Bobet with its customers, even in the event of international sales, summary proceedings, incidental applications, multiple defendants or calls on guarantees, notwithstanding any clause to the contrary in the customer's commercial or contractual documents.
